YESTELECOM

Business Phone Systems

Hosted phone service for your business

A hosted VoIP phone system for small business offices in Toronto and across Canada. Keep your existing number, make and take calls anywhere you have internet, and get local support from a team that knows your setup.

What you get

- Auto attendant and extensions
- Call forwarding and voicemail
- Keep your existing phone number
- Microsoft Teams integration as an add-on

Built for how you work

- **Office:** handle customer calls with routing, voicemail and caller ID.
- **Remote:** use your business line at home with an internet connection.
- **Mobile:** take your business line on the road.
- **Multiple locations:** keep every site on one system.

One plan for your whole team

One business phone plan with the calling features your team uses every day, unlimited calling across Canada and the U.S., and dedicated technical support.

STANDARD BUSINESS LINE

ENTERPRISE PLAN

Starting at

$25

per line*

*Billed monthly. Taxes extra.

INCLUDED CALLING FEATURES

- Unlimited Canada-wide calling
- Unlimited USA calling
- Hosted PBX routing
- Enhanced voicemail
- Caller ID with name
- Call waiting
- Call forwarding
- 3-way calling

- Dedicated technical support

Switching is simple

1. Tell us about your setup
Share your team size and current phone service.

2. Choose your phones and features
We recommend the right equipment and plan.

3. Move your number and start calling
We help transfer your number and connect your team.

*Starting price per line, billed monthly. Applicable taxes extra. Number transfer timing depends on your current provider. Your demo confirms the final price for your setup.
